SYNTHETIC DOCUMENT - FOR DEMONSTRATION ONLY

Northwind Care, Clinical Review Unit, 42 Sample Harbor Road, Fairview (fictional)

NOTICE OF ADVERSE DETERMINATION - PRIOR AUTHORIZATION

Date: September 4, 2026
Member: Tomas Brightwater
Member ID: NWC-77310256
Requesting provider: Avery Lindqvist, MD (fictional)
Service requested: Continuous glucose monitor
Code: HCPCS E2103
Diagnosis codes: E11.65, Z79.4

Dear Tomas Brightwater,

Northwind Care reviewed the prior authorization request for Continuous glucose monitor under Medical Policy NWC-DME-305. The request is denied because the service is not medically necessary for the member's condition based on the records submitted.

Determination type: Medical necessity

Reason for denial: Insulin therapy and a recent practitioner evaluation are not documented.

This decision is based on section 2.4 of policy NWC-DME-305. A clinician reviewed the records submitted with the request.

Your right to appeal: you or your provider may submit a written appeal within 60 days of this notice. The appeal must be received by November 3, 2026. Your provider may also request a peer-to-peer discussion with our medical director.

Independent external review: if the denial is upheld on appeal, or if we do not decide the appeal in time, you may ask for an independent external review by a clinical reviewer who is not part of Northwind Care.

Sincerely,
Medical Director, Northwind Care (fictional)
